

Avnet's International Women's Day Panel, hosted by RISE

WE celebrates sponsor company, Avnet, for embracing International Women Day's Choose to Challenge theme. RISE, Avnet's employee resource group dedicated to elevating women in the workplace, hosted a live global event in honor of IWD. More than 2,000 employees from Avnet's Americas, EMEA and APAC regions attended the virtual session.

Following a panel discussion with four female leaders, co-hosts Linda Love, senior director, customer operations and Jackie Carley, senior director, business systems analysis, questioned CEO Phil Gallagher and Chief People Officer Ken Arnold on topics requested by RISE members.

"Being part of any initiative that supports diversity and inclusion is just the right thing to do. Women make up 45% of Avnet's workforce so you can bet I will continue to champion programs that enable us to identify our rising female leaders early in their careers and position them for success in leadership roles. I encourage the men of Avnet to be part of the solution by working together with women to foster an environment where everyone has access to the same opportunities, rights and performance expectations." - Avnet CEO Phil Gallagher

Choose to Challenge: Reaching even further at Avnet

A panel discussion honoring International Women's Day
March 8, 2021 from 8:00-9:00 a.m. MST
