Women in Electronics Welcomes Molex to its Sponsor Family

Orange County, CA – June 19, 2023 – Women in Electronics (WE), a 501c3 public charity providing leadership growth and development, mentorship, networking, thought-leadership events, and resources that advance results in gender parity, announced today its newest Silver sponsor, Molex, a global electronics leader and innovator committed to making the world a better, more connected place.

"Molex works to create mutual benefit and remove barriers to opportunity for our employees, customers and communities. We are committed to ensuring that everyone can self-actualize and grow to achieve their full potential, and WE drives similar goals through its innovative development programs," said Christine McDermott, Vice President of Global Marketing for Molex. "By supporting WE and their industry leadership commitment, we proudly champion the exceptional women who have chosen the electronics industry as a means to make a positive impact in the world."

WE seeks to unite and advance career opportunities for its members. The WE programs, resources, and events provide thought leadership and education to help make strides toward diversity, equity, and inclusion efforts in the electronics industry and beyond. "WE is grateful to receive our Silver level sponsorship from Molex, and we look forward to collaborating with Molex to create connections among differing industries to further a sense of belonging for all to thrive", says Jackie Mattox, CEO of Women in Electronics.

WE offers gratitude to sponsors: Amphenol, Arrow Electronics, Avnet/Newark/Farnell, Kyocera/AVX, Altium/Nexar/Octopart, Cornell Dubilier, Digi-Key, EETech, Flex Electronics, Galco Industrial Electronics, Littelfuse, Master Electronics, Molex, Rochester Electronics, Orbweaver, Plexus, RS, Rutronik, Samtec, Sourceability, Supplyframe, TTI Family of Specialists, Vishay, Waldom, and YAGEO Group.

About Women in Electronics

Women in Electronics (WE) was founded in 2017 by a group of industry professionals to offer a sense of community, develop together, and unite with colleagues to advance results in gender parity in the electronics industry and related end-user markets. WE is focused on four organizational goals: empower, advocate, develop, and celebrate by providing leadership growth and development, mentorship, networking, thought-leadership events, and career resources. Women in Electronics receives support from leading industry organizations and reaches the industry community through events and local chapters throughout the US and Europe, with plans to reach a broader global community.
